12 DEC 1958

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Non-reimbursable Military Personnel Space Authorizations

REFERENCE: Memorandum dated 7 November 1958 to Comptroller from DD/S, Same subject

1. The above subject has been discussed with the Office of the Budget, Department of Defense.

2. Based upon discussions, both internally and with DOD representatives, it appears that there is now some differences of opinion as to the reason for the reimbursable and the non-reimbursable categories of the personnel detailed to the Agency from the Department. Our position, based on the agreements between the Department of Defense and the Agency, is that reimbursements should not be required on officers and enlisted men assigned to paramilitary activities, while the Air Force has taken the position that reimbursement should be made unless the assignment of an individual was requested by that agency for their specific benefit. It was requested that Defense representatives review their files with the view of determining the basis for their interpretation of the categories.

3. Further discussions will be held with the Department of Defense in an attempt to resolve the issues involved.
